supporting members since 1888

The Minneapolis Builders Exchange is a progressive, member-oriented non-profit association dedicated to assisting construction industry businesses throughout the Upper Midwest Region.

We specialize in construction project news and plan room services. In addition, we offer our members ways to establish social networks within the industry and group buying opportunities. These services are tailored to help your firm succeed.

The Exchange is always ready to meet the needs of the industry and its prospective members. We encourage you to review the numerous member services we offer described under the membership tab of our website at **www.mbx.org**.

If you are ready to utilize these valuable services, please complete the membership application and mail it along with a check for the annual dues and the application fee. Should you have any questions or would like a free trial, please call Jill Gerwig at (612) 381-2631, or drop by to visit us.
